

I understand that the K-LOVE radio signal could be replaced in some areas by an LPFM. Radio signals are something about which I am completely ignorant. However, I DO know that K-LOVE Radio has had a tremendous impact on my immediate family, and I know of so many other families in our circle of friends and acquaintances, in various parts of the country, who are also faithful listeners and supporters. The privilege of being able to set my radio dial and relax, not having to be concerned about the possibility of being surprised by off-color humor or "adult" topics is so very much appreciated. The music and dialog transmitted on K-LOVE are always up-lifting and encouraging. Please assure K-LOVE listeners that this positive influence in the lives of our families will be allowed to continue. Thank you so much for requesting public comment on this important topic.
